A brief summary of the 'CACI Non Surgical Face Lift' facial toning treatment?

The result of over 20 years research, the 'CACI Non Surgical Face Lift' facial toning treatment has:

- Been industry voted the most effective anti-ageing treatment available
- Gained a Worldwide reputation as the Aesthetics Industry's Finest Microcurrent Treatment.

The safe, non-invasive, CACI Non-Surgical Micro-current Treatment Procedure:

- Works in harmony with the body's own, sub-sensory, bio-electrical field
- Employs two sets of probes which apply tiny, sub-sensory, micro-current electrical impulses to the facial muscles
- Gently exercises the facial muscles, tightening & firming them in order to reduce slackness, re-educating the muscle keeping it healthy, toned & lifted to defy gravitational pull of sagging muscles & skin.

In addition, the CACI Non-Surgical Micro-current Treatment Procedure:

- Treats both the skin & the supporting muscle tissue beneath it restoring form & vitality
- Plumps up & rejuvenates the skin's appearance, softening lines & wrinkles & rehydrates the skin leaving a wonderful glow
- Stimulates the circulation of energy to the facial tissues & muscles which, in turn increases the rate of Muscle tissue re-construction
- Re-establishes proper muscle tightness and firmness
- Helps to tone, lift & re-educate the muscles back to their original position resulting in improvements to facial definition, contours & expression

CACI treatment results are often so dramatic that CACI has become known as the "Non -Surgical Face Lift" - join & follow the enviable clientele of Famous Celebrity Faces.

**For further details, please see our separate brochure entitled:
Your MYO Introductory 'CACI Non-Surgical Face Lift' Experience**

A brief summary of our MYO 'Fascial Facial' treatment

MYO Fascial Restrictions brought about by our life experiences have the effect of:

- Limiting mobility & restricting the amounts of Oxygen, Nutrients, Biochemicals, Hormones, information & energy that our body's cells receive & process.
- Interfering with the delicate inner mechanisms within each cell thereby trapping Debris, Waste Products & Toxins & leading to the decline which is attributed to the Ageing Process.

In addition, any Trauma or Malfunction within our **MYO Fascial System** can set up an environment for poor Cellular Efficiency, Necrosis, Disease, Pain & Dysfunction.

A MYOTHERAPIES MYO 'Fascial Facial' Treatment:

- Releases restrictions of the **MYO Fascial & Connective Tissue & Muscular Contractures**.
- Awakens the natural self-protective response of our **MYO Fascial & Connective Tissue** thus beginning the repair process

In addition, the treatment:

- Restores:
 - Interstitial spaces within our ground substance
 - Cellular support, protection, separation, respiration, nutrition & metabolism
 - The immediate environment of every cell of our face & neck areas
- Helps to ease / reduce the appearance of Lines, Wrinkles, Folds & Furrows by releasing three-dimensional Contractures & Restrictions in the **MYO Fascial System**
 - Increases the circulation within these areas allowing a fresh optimal supply of Oxygen & Nutrient-rich Blood to nourish cells
 - Sweeps away Metabolic Waste & Debris
 - Decreases Muscle & Fascial Tension

**For further details, please see our separate brochure entitled:
Your MYO Introductory 'Fascial Facial' Experience**

Experience MYOTHERAPIES Unique

MYO 'Fascialift Facial' Treatment

An exciting **FUSION** between:

MYOTHERAPIES **MYO 'Fascial Facial'**

& the industry voted:

'CACI Non-Surgical Face Lift'

These two amazing treatments are now fully integrated into one highly effective, customised, Facial Treatment.

Why a **FUSION between MYO 'Fascial Facial' treatment & the 'CACI Non Surgical Face Lift' facial toning treatment?**

If left untreated, restricted Face Fascia will hinder the Neurological responsiveness of muscles to re-education afforded by the renowned 'CACI Non Surgical Face Lift' treatment process.

However, by first undertaking a **MYO 'Fascial Facial'**, Face Fascial Restrictions are released thus creating a more natural environment within your face skin and muscles thereby paving the way for the highly effective 'CACI Non Surgical Face Lift' facial toning treatment.

This unique approach is a serious alternative to Facial & Anti-Ageing Treatments administered by Surgery, Needles, Lasers & Invasive Surgical Aesthetic Procedures.

The Result:

Your **MYO 'Fascialift Facial'** Treatment will allow you to feel, from within, the true essence of a more youthful you. Importantly you will feel, as you once did, confident about your appearance.

You will achieve **'MYO Fascial Facial Freedom'**

Be the Best 'Face Lift' Version of Yourself

Your MYO Introductory 'Fascialift Facial' Experience

Your MYO Introductory 'Fascialift Facial' Experience Awaits

75 minutes of 'Fascialift Facial' Assessment and Initial Treatment for £50

On your Initial Treatment Day Jenna will prepare and discuss with you your Personal Package Plan of MYO 'Fascialift Facial' Treatment (see below) that will provide you with relief from your individual facial concerns and / or undesired Facial Appearance.

Book & Purchase this Personal Package Plan on your Initial Treatment Day and Your MYO Introductory 'Fascialift Facial' Experience will be provided **free of charge**.

MYO 'Fascialift Facial' Testimonial: *'My eyes feel so wide open, fresh and awake from within, ready to face the world with the inner and outer confidence I once had'*

No other Facial works at such a profound, three-dimensional, internal cellular level both physically and emotionally.

Your Introductory Treatment

On your Introductory Treatment Day, Jenna will undertake an assessment and carry out a ½ face Introductory Treatment. Your full Introductory Treatment Experience will be completed by releasing & bringing your whole Face into alignment providing an insight into likely results to be achieved.

A MYO Facial Map will be prepared showing your Individual MYO 'Fascial Facial' Neck, Decolletage and MYO Fascial Restrictions. The MYO Facial Map takes into account aspects such as your Facial Appearance, Lines, Wrinkles, Furrows, Expressions, Inflammation, Congestion, Skin Quality, Muscle Contractures as well as Skin Elastin & Collagenous Depletion.

Jenna will discuss with you your Individual MYO Facial Map to determine your suitability for MYO 'Fascialift Facial' Treatment. She will also discuss any other beneficial options for MYOTHERAPIES Treatments.

As everyone's needs and responds are different, a suitable & effective Personal Package Plan of MYO 'Fascialift Facial' Treatment will be prepared to meet your specific requirements.

Included within your Personal Package Plan will be:

- Contraindication screening
- Alternative / Additional recommendations from the MYOTHERAPIES Treatments range to further optimise your outcome & the longevity of results.
- An indication of the likely MYO Maintenance Schedule and beneficial expectations
- Healthy Lifestyle recommendations for example:
 - Abstinence from tobacco related products
 - Control of alcohol
 - Fluid intake
 - Balanced diet
 - Exercise
 - UV exposure restrictions
